

A leading ruggedized telematics device

Reliability in all environments

GO9 RUGGED is a ruggedized telematics device for harsh conditions or external installation. Track valuable assets, increase equipment uptime and lower operating costs with Geotab's innovative open platform for fleet management. Take advantage of advanced GPS technology, g-force monitoring, and engine and battery health assessment and more to make informed fleet decisions. Drive positive changes into your fleet operations today.

The GO9 RUGGED is ideal for

- + Heavy Equipment
- + Construction
- + Utilities
- + Oil, Gas & Mining
- + Agriculture
- + Trucks
- + Powered Assets
- + Trailers & Generators

You must select the correct Geotab hardware suitable for your specific installation environment and vehicle use. For installations where exposure to the elements (e.g. liquids, dust, or interior wet cleaning/powerwash) is anticipated, select the GO RUGGED device (GR8 rated IP67 and GR9 rated IP68 and IP69K). For additional information regarding environmental contaminants, see the applicable installation instructions in the Important Safety Information & Limitations of Use document.
